Wilwood Manual Brake Master Cylinder, C10

Thank you!

Thank you for purchasing a product from Level 7 Motorsports! We have been in business since 2001 and have built a very diverse list of completed projects. Some of these projects have shown us a need for certain parts in the market. We are very passionate about what we do and are fortunate enough to be able to share some of these parts with you.

Product Information - Installation Notes.

- The pushrod has been intentionally left long due to variances in model year length as well as the possible use of a master cylinder spacer. Be prepared to trim to the proper length for your application.
- We have also included a 3/8" pushrod bushing and hardware in the case that you need to change your pedal ratio from power to manual. You will need to drill a 3/8" hole and use included hardware to secure the pushrod in the new location.
